Agile
AUS 26

19–20 May 2026 • MCG, Melbourne
agileaustralia.com.au/2026

The organisations making the most of AI are those investing in how their people work, collaborate, and deliver. Agility has never been more tested – or more needed.

An agile mindset is the compass that makes intelligent tools actually useful – and AgileAus26 is for the people building that capability.

We're bringing together practitioners to share what's working, what isn't, and what better looks like from here. On stage, over coffee, and in the hallways – because in person there's a different kind of honesty.

Why attend?

- Hear honest stories of what organisations really tried, what worked, and what they'd do differently
- Explore how leaders are building teams that can decide, not just execute
- Learn how to create workplaces where people do their best work – autonomous, trusted, and genuinely productive

- Explore how teams are actually integrating intelligent tools without losing what makes people effective, creative and curious
- Walk away with approaches tested in organisations like yours
- Connect with practitioners across industries navigating the same questions you are

Speakers include:

Adam Boas
Mable

Nigel Dalton
ThoughtWorks

Catherine Drury
Roche

Rashina Hoda
Monash University

Dara O'Sullivan
Kmart+Target

What people say

"It was a fantastic event – I was blown away by the raw talent. Not just speakers and coordinators, but the audience as well. An incredible collection of people."
James Ratsasane, MECCA • AgileAus25 Speaker

"What an inspiring couple of days – packed with powerful sessions, real conversations, and a community that lives and breathes agility."
Ganesh Karthik Jonnalagadda, Reserve Bank of Australia • AgileAus25 Attendee
